CAREER FOCUS

I am a highly skilled and result-driven software developer with determination and focus on building high-quality, scalable, maintainable, and high-performant applications in any environment I find myself. I also strive for excellence and precision at all times, no matter the circumstance, to meet expectations, contribute the best of my ability to improve organizational objectives, and enhance products with state-of-the-art technologies.

WORK EXPERIENCE

Full-time employee   **Dec 2021 - present**
Seenons, *Amsterdam, Netherlands.*
Software engineering: Working with enthusiastic software developers to develop a waste management platform with the mission of achieving zero waste across Europe.
At Seenons, we are currently developing a platform that connects waste-pickup drivers of Logistic Providers to users across The Netherlands that want to dispose their waste.

Tech stacks: NodeJS, NestJS, *Angular 11+, React/Redux, TypeScript, RxJS, Queues, AWS, Docker, Github actions, HTML/CSS, SCSS, Bootstrap, Flexbox, CSS Grid, PostgreSQL, MongoDB, Karma, Jest, Jasmine, Mocha, Chai.*

Full-time employee   **Apr 2020 – Nov 2021**
iTecGurus, *Florida, U.S.A.*
Worked with other software developers on the team to develop new features and maintain applications for some of iTecGurus' clients. I'm also responsible for coordinating activities for the team and mentoring junior developers.

Tech stacks: *Angular 11, NodeJS, TypeScript, RxJS, NgRx, GraphQL, HighCharts.JS, AWS, Docker, HTML/CSS, SCSS, Bootstrap, Flexbox, CSS Grid, PostgreSQL, MongoDB, Karma, Jasmine..*

Full-time employee   **Aug 2017 – Mar 2020**
Andela Nigeria, *Lagos, Nigeria*
Software development: Worked collaboratively to build web and mobile applications for Andela in-house use and for their clients, mostly in United states.

Tech stacks: *Angular 9, React/Redux, NodeJS, TypeScript, RxJS, PHP/Laravel, Sequelize, MongoDB, PostgreSQL, MySQL, Stripe API, HTML/CSS, SCSS, jQuery, Bootstrap, MaterializeCSS, Protractor, Nightwatch, Karma, Jasmine, Jest,* Docker, AWS.

Contract employee   **Aug 2018 – Sep 2019**
Attune Insurance, *New York, U.S.A.*
Full-stack development: Worked on both frontend and backend of their platform to develop their payment system and implement many other features.

Tech stacks: *Angular 8, NodeJS, TypeScript, Stripe API, HTML/CSS, SCSS, Karma, Jasmine, Docker, AWS, Gira.*

Contract employee   **Apr 2019 – Aug 2019**
Bittboard, *Chicago, U.S.A.*
Full-stack development: Worked with other developers to develop a platform for running a visual commerce business.

Tech stacks: *React, Redux, TypeScript, NodeJS, Socket.IO, HTML/CSS, SCSS, MySQL.*

Full-time employee   **Feb 2016 – Mar 2017**
Ekaruz Technology, *Lagos, Nigeria.*
Full-stack development: developed fully-fledged invoice management web app for them and collaborated with other team members to develop features for their clients.

Tech stacks: *PHP/Laravel, React, Angular 2, NodeJS, jQuery, HTML/CSS, Mocha, Chai, MongoDB, MySQL, PostgreSQL.*

Developer Intern   **Jun 2014 – Nov 2014**
Software Development Unit, *Ahmadu Bello University, Nigeria.*
Web application development / Office assistant: Worked mainly as intern with the senior developers on the team to maintain and develop features for the university website.

Tech stacks: *Vanilla PHP, JavaScript, jQuery, HTML/CSS, Bootstrap.*
